

# Making Worlds

*an Occupy Wall Street event*

## Forum on the Commons

- The COMMONS are resources that belong to everyone: AIR, WATER, ECOSYSTEMS, LANGUAGE, TRADITIONS, CULTURE. We need to nurture them for future generations.
- The market system is transforming our commons into profit centers, stealing from us all as well.
- Join us for three days of sharing resources and ideas on how we can reclaim traditional commons, shape the new digital commons, and create a livable world for today and tomorrow.
